

Dr. Verify

A MEDICAL PROVIDER DIRECTORY VERIFICATION SERVICE

*Helping our clients achieve a consistent
5 star rating and an excellent
customer/patient experience*

COMPANY OVERVIEW

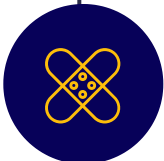

MISSION

Create an amazing experience for our client's patients and members

Help our clients achieve a 5-Star CMS Rating which improves patient retention and revenue

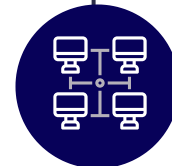

Make the doctor and provider verification process seamless and efficient

CORE VALUES

Growth

Developing Dynamic Data

World Class Technology

OUR PHILOSOPHY

We are a technology-driven team that uses software to boost productivity to create a new standard in Provider Data Management.

4 CORE FEATURES

#1 Compliance

Maintaining compliance is a legal standard you have to get right. Avoid hefty CMS penalties and protect your brand from unwanted attention. **Dr. Verify** keeps your directory compliant so you stay in control.

#2 Accuracy

Beyond compliance is a higher standard of accuracy your plan members need and increased satisfaction. Bad data chips away at the foundation of your business. **Dr. Verify** takes your directory to the next level of accuracy.

#3 Developing Dynamic Data

Accuracy is a moving target. It's not enough for your directory to be accurate a few times a year. Benefit from data that is dynamically updated using proactive verification and custom data integration.

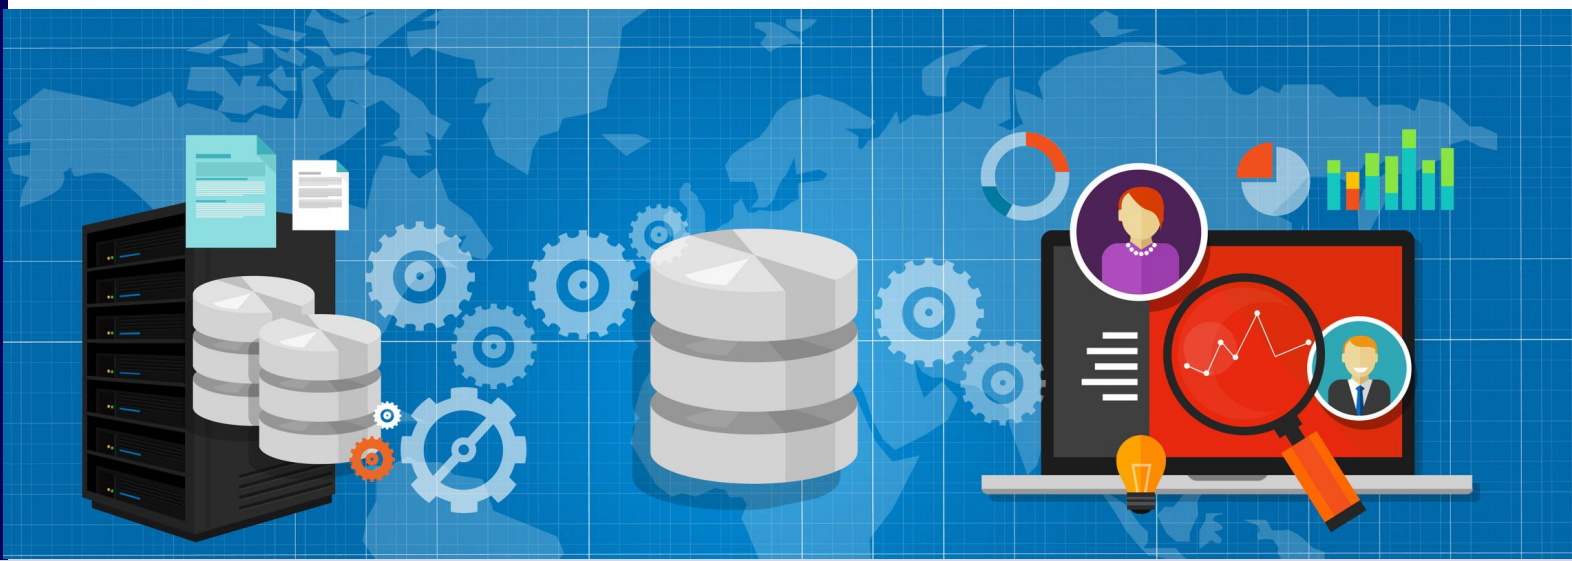

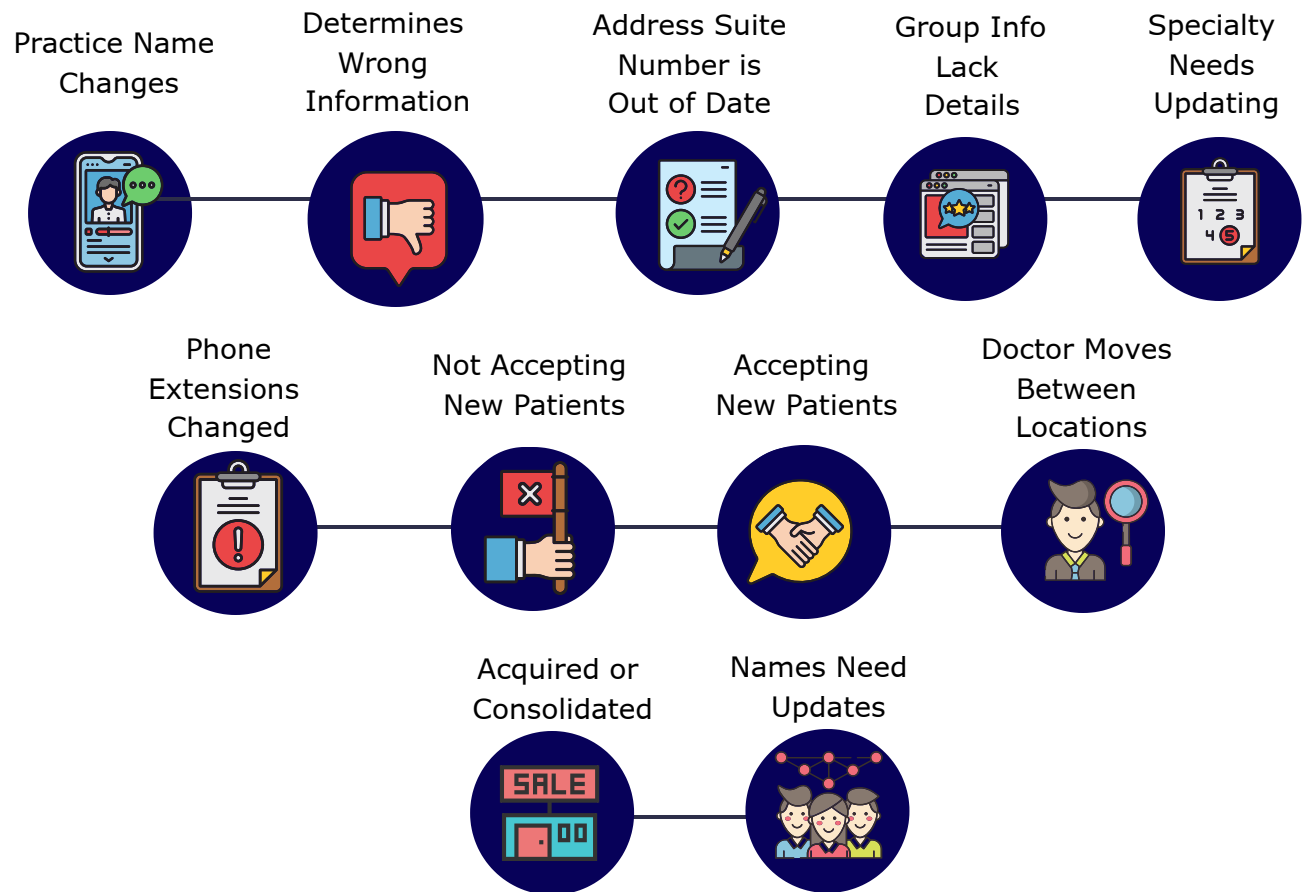

#4 Unique Business Insights

Once you reach the new standard of continuously updated directory information, we take you to the next level with customized business information that builds value unique to your brand.

HOW OUR SYSTEM IMPROVES DATA

We employ best practices that create an accurate and efficient provider directory.
